

Remote OS Installation & Troubleshooting Service

What I Offer:

- OS Installation (Windows, Linux, Android-x86)
- Dual Boot Setup
- System Optimization (updates, driver fix, cleanup)
- Troubleshooting (boot errors, BSOD, GRUB issues)

Why It Works:

- Most users face issues installing or fixing OS systems.
- You get fast, remote, and secure tech support.
- No need to visit a repair shop. Everything is done remotely.

Where to Start:

- Contact me on Fiverr, Facebook, or via my landing page.
- Pay only when you're satisfied!
- I use secure tools like AnyDesk/RustDesk for access.

Extras:

- Free 10-minute system audit
- Transparent, safe process with optional video
- Multilingual support available (English/Urdu)
